Foundation

Software is eating the world.

Marc Andreessen, Venture Capitalist

We are HIRING! Please see our job posting on LinkedIn.

We are living in unprecedented times, software has transformed how we live. From smartphones to smart wearables, from finding information to buying things, from banking to healthcare, from listening to music to driving a car, every aspect of our life is impacted by computers. This trend will only accelerate with the new age of AI and Machine Learning. The future belongs to nations who can make fundamental advances in Computer Science.

To ensure that the brightest minds in the world get an opportunity to study Computer Science, leaders from Silicon Valley, top American and European institutions, industry leaders, and venture capitalists have come together to build a new University focussed on Computer Science - Sitare University. The first Sitare batch was started in 2022 with twenty four students, and the second batch admitted in 2023 has forty four students. We plan to admit around one hundred students in 2024, and gradually increase this number to around one thousand admissions per year in 2030. Sitare students are selected based upon their JEE mains performance, as well as an interview.

FREE for Bright Underprivileged Students

Sitare Foundation will provide 100% scholarships to all deserving students of Sitare University.

- Amit Singhal, Founder, Sitare Foundation

Bottom content:

ring. Previously, he was the CEO of Infosys and the CTO of SAP SE. He serves on the Supervisory Board of BMW Group and on the Advisory Council for the Stanford Institute for Human-Centered Artificial Intelligence. Vishal holds a Ph.D. in Computer Science from Stanford University. [Link](#)

Yoram Singer
Visiting Faculty, Computer Science
Dr. Singer is the Chief AI Scientist at WorldQuant, a US based hedge fund. Previously he was a faculty at Princeton University, a research scientist at Google, a faculty at Hebrew University, and also a research Scientist at AT&T Labs. Yoram holds a Ph.D. in Computer Science from the Hebrew University in Jerusalem. [Link](#)
