Biography Born in Jhansi Uttar Pradesh India Singhal received a Bachelor of Engineering degree in computer science from IIT Roorkee in 1989. He continued his computer science education in the United States M.S. degree from University of Minnesota Duluth in 1991. He wrote about his time at the University of Minnesota Duluth: UMD was the turning point in my life. Studying Information Retrieval with Don Crouch and then Don recommending that I move to Cornell to study with Gerard Salton, is the main reason behind my success today. Don gave me the love for search, I have just followed my passion ever since. –&#8202; Amit Singhal Singhal continued his studies at Cornell University in Ithaca, New York Ph.D. degree in 1996. At Cornell, Singhal studied with Gerard Salton information retrieval John Battelle The Search AT&T Labs Bell Labs Controversy He left Google on 26 February 2016, following sexual-harassment allegations. He later joined Uber as Senior Vice President of software engineering in 2017 but was asked to resign for failing to disclose the reason for his resignation from Google. It was later revealed that Google paid him $35 Million as his exit package. Career In 2000, he was recruited by friend Krishna Bharat to join Google. Singhal ran Google's core search quality department where he and his team were responsible for the Google search algorithms. According to The New York Times As a reward for his rewrite of the search engine in 2001, Singhal was named a "Google Fellow". Singhal served as the head of Google's core search ranking team until his retirement announced on 26 February 2016. In 2017, he joined Uber as SVP of engineering, reporting to CEO Travis Kalanick, and with his fellow Google alum Kevin Thompson operating as SVP of marketplace engineering. Honors and awards In 2011 he was inducted as a Fellow of the Association for Computing Machinery Fortune named Singhal one of the smartest people in tech. In 2011, Singhal was given the Outstanding Achievement in Science and Technology Award at The Asian Awards He was elected member of the National Academy of Engineering References "Alumni by Year" Cornell University 1 October 2015 "Abstract/Details" ProQuest 1 October 2015 "acknowledgements in doctoral thesis of Amit Singhal" Cornell University 4 February 2016 "Amit Singhal's journey from Jhansi to Google" CNN-IBN a b Bloomberg Businessweek's interview with Amit Singhal Archived 17 April 2010 at the Wayback Machine a b Adams, Tim (19 January 2013). Background edit The Hanging Stone is on the edge of a cliff above Lake Raduzhnoye (Rainbow Lake) in the western Sayan Mountains in Krasnoyarsk Krai The stone is an attraction in the Ergaki Nature Park. Legend edit The legend of the stone is thought to come from the Turkic peoples and Sayan aborigines. They believe that the world will end when the stone falls. The area features a chain of rocks or a ridge that appears to be a silhouette of a man lying on his back, which is said to represent a person from the legend known as "Sleeping Sayan". Local legend states that when the stone falls into Lake Raduzhnoye, the Sleeping Sayan will wake up. Another legend teaches that the monolithic stone is the heart of the Sleeping Sayan. People say that the stone vibrates, which is evidence of the beating heart. Some people also believe that the rock may represent the Russian mythical hero Svyatogor Several groups of tourists have tried to dislodge the landmark by pushing it down the mountain, but without any success. Some people have even brought winches and jacks to try to dislodge the stone. It did not move at all; it is held on with stone chips supporting its base. The area also experiences frequent earthquakes, but the stone has not moved as of 2024. Description edit The Hanging Stone, Western Sayan, Ergaki mountains The stone is perched on a precipice, giving the impression that it may fall. The weight of the stone is estimated at 500 tons. It is positioned approximately 1,000﻿ ft (3,300﻿ ft) above the lake. The stone is 15﻿ ft (496﻿ ft) long. At one time the stone reportedly swayed, but over time grooves became clogged and froze the stone in one place. There is a trail leading to the stone that can be navigated between June and September. The trail is 12﻿ mi (7.5﻿ mi) long and takes five to seven hours. The Ergaki Nature Park charges 4,800 rubles for a guided tour to visit the stone. The weather in the region changes quickly and can even receive snowfall in the month of June. People News Contact Us LinkedIn Foundation Software is eating the world. Marc Andreessen, Venture Capitalist Read about our very successful industry internsh
ip program in our last update We are living in unprecedented times, software has transformed how we live. From smartphones to smart wearables, from finding
information to buying things, from banking to healthcare, from listening to music to driving a car, every aspect of our life is impacted by computers. This
trend will only accelerate with the new age of AI and Machine Learning. The future belongs to nations who can make fundamental advances in Computer Science.
To ensure that the brightest minds in the world get an opportunity to study Computer Science, leaders from Silicon Valley, top American and European instit
utions, industry leaders, and venture capitalists have come together to build a new University focussed on Computer Science - Sitare University. The first S
itare batch was started in 2022 with twenty four students, and the second batch admitted in 2023 has forty four students. We plan to admit around one hundre
d students in 2024, and gradually increase this number to around one thousand admissions per year in 2030. Sitare students are selected based upon their JEE
mains performance, as well as an interview. FREE for Bright Underprivileged Students Sitare Foundation will provide 100% scholarships to all deserving stud
ents of Sitare University. - Amit Singhal, Founder, Sitare Foundation Sitare University provides high quality Computer Science education to all bright stude
nts from underprivileged backgrounds free of cost The curriculum at Sitare University focuses on industry oriented CS education. Our students learn Python,
Math, Data Structures and English Communication in first year;
Algorithms, Java, Systems, Databases/IR, and Machine Learning in second year; Frontend, Systems, and more Machine Learning in third year alongsi
de Hands-on Projects and Problem Solving.
The fourth year is to be spent in the industry. Our students get paid internships right from the first summer itself. Sitare University will foc
us on five specialized areas, especially relevant within Computer Science: Artificial Intelligence With focus on Machine Learning, Computer Vision, Natural
Language Processing, and Deep Learning. Systems With focus on Cloud Computing, Operating Systems, Computer Networks, Data Management, and the Modern Interne
t. Human-Computer Interaction With focus on iOS and Android Development, HCI Design, Computer Graphics and Imaging, and Web Applications. Data Science With
focus on data gathering, data quality, data pipelines, data in Machine Learning, data processing, and data visualization. Computer Security With focus on Au
thentication, System Security, Network Security, Code Security, Privacy and Policy. We intend to become one of the best Computer Science educational institu
tes in India by 2030. Internships and Jobs in India and Abroad Sitare's deep academic program will be coupled with a rigorous industry internship program wi
th internships and employment in India and Silicon Valley, USA. Sitare University already has strong commitments from several industry leaders. Important Fa
cts Sitare University will be established near Indore as a full Private State University under the Madhya Pradesh Private University Act. We have started co
nstruction of our new campus on a beautiful 38 acre site (near Dewas) on Bhopal-Indore highway. We hope to move to our new campus in March 2025.
For the time being, we are operating out of Lucknow. Our students have been offered admission into our partner university, Sri Ramswaroop
Memorial University, in Lucknow. Our students are enrolled in a four year Bachelor of Engineering degree in Computer Science and are being taught by the fac
ulty mentioned here in our People Section. The intent to establish Sitare University in Madhya Pradesh was announced by Smt. Yashodhara Raje Scindia, Hon. M
inister for Sports and Youth Welfare, Technical Education, Skill Development and Employment, Government of Madhya Pradesh, and Dr. Mohan Yadav, Hon. Ministe
r for Higher Education, Government of Madhya Pradesh alongside our Founder, Dr. Amit Singhal. Faculty Positions at Sitare University Sitare University invit
es applications for CS faculty positions. The appointment will be made as a Professor, with rank (Assistant, Associate or Full Professor) depending upon the
candidate's seniority and experience.
Applicants for this position are expected to have a strong commitment and aptitude for teaching undergraduate students, as well as engage in app
lication oriented research projects through collaboration with industry partners.
For more details, please see our job posting on linkedin People Some of the top technology leaders in the world have come together to build Sita
re University. Our team has a very deep passion for Computer Science. We believe in excellence, being the best in the world, and giving back to the communit
y. Shilpa and Amit Singhal Founders Our founders Shilpa and Amit have been passionate about education as far back as they can remember. Both Shilpa and Amit
