Sitare University
Our humble mission
Transform fifty thousand lives through education by 2050.
Sitare University - FREE Computer Science B.Tech. degrees to talented students. 
Education is empowerment. Education gives us hope. Education has the power to uplift not only individuals, but the entire world. In to
day world, good education is not always accessible to the underprivileged in our society. There is tremendous potential and talent in
these children, all they need is access to good education. At the Sitare Foundation, we believe in providing access to high quality ed
ucation to the most talented underprivileged children in our society. We have embarked upon a humble mission. Our mission is to "Trans
form fifty thousand lives through education by 2050."
Get in touch
Barack Obama
44th President of the United States
"The best anti-poverty program is a world-class education."
Transforming Lives
Mahendra was born and raised in a small town, Chohtan in Barmer District, Western Rajasthan. His father works in a sheet metal factory
 rolling stainless steel sheets. His elder brother also works in the same factory. They have a very large family to support, and if Ma
hendra didn't get an opportunity to study in Sitare Foundation, he would probably be working in the same factory today to support his
family. "I got an opportunity to be a part of the organization where I met some of the most motivated young people, who were nurtured
by the Sitare Foundation to dream higher."
Kusum is a poor farmer's daughter. Her family does not own the land they farm, they just work there, while the landowner keeps the lio
n share of the earnings. They only get 30 cents on a dollar of crops sold. "In my community, women are seldom sent to school, but my p
arents believe in education. They knew that education, especially women's education, is the only way out of generational poverty. For
me, the path to education was never easy. From a young age, I have contributed to the farm work, from milking cows, to cooking, tillin
g the fields, I did whatever was needed to help my family."
Milan comes from a life of adversity. His father is an auto-rickshaw driver who works day and night to make ends meet. In his auto-ric
kshaw, Milan's father used to take several affluent kids to school everyday, and outside that private school, he used to shake his hea
d thinking his children will never be able to go to such a good school. All that changed when Milan was selected into the Sitare Found
ation. Today his father proudly brings his son to the same school sometime in his auto-rickshaw. Nisha was born and brought up in a sm

We are learning a lot. The challenge of educating underprivileged children is daunting, but that does not and will never deter us. We
are taking a scientific,
step-by-step approach to impact lives and societies through education. We aim to educate 50,000 students by 2050. We know that after g
oing through our seven-year program, our students will shine like Sitare (Hindi for Stars),
and inspire millions in their own communities.
We are thankful to OakNorth for sponsoring the education of thirty five underprivileged girls through their CSR program.
